

RIVIERA MAYA ELECTRICAL SUBSTATION

-  #GoodNews The Riviera Maya electrical substation, which required an investment of USD 65.7 million, will benefit 1.1 million people who live in northern Quintana Roo. bit.ly/2q19hVt
-  Ensuring the increasing supply of energy needed today is a sign that Mexico's economic activity is growing and needs more electricity. bit.ly/2q19hVt
-  The Riviera Maya's demand for electricity is increasing by more than 7% per year, so this substation will help deliver a higher quality service to households and businesses.
-  #Mexico will be able to grow the gas pipeline infrastructure to bring natural gas to the industry and to the natural gas power plants.
